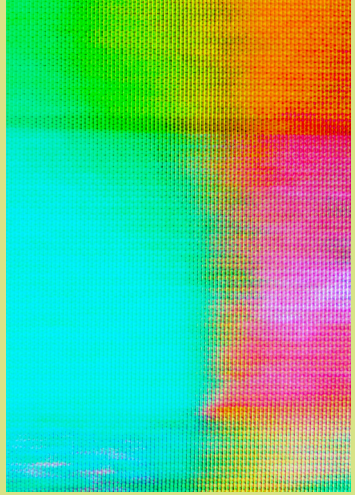
# Master's Programmes



**Our expert academics are here to harness your passion and help you go deeper than ever before into the subjects you love.**

Like all University of Hull courses, our London Campus is focused on employability from beginning to end. Our emphasis on career skills, makes sure you will be prepared for the role you want to go into when you graduate, and be able to demonstrate to employers that you have what it takes. The international jobs market is highly competitive. A degree from the University of Hull is a great way to make sure your CV stands out.

Whatever subject you are passionate about, studying at Hull in London will give you access to teaching that is tailored to give students the skills and mindset they need for the future. Take a look at the courses currently on offer at the University of Hull London.

97.9% of our master's graduates are in work or further study 15 months after completing their course[2]

## Entry Requirements

Our programmes are designed for graduates from any discipline with a strong interest in the principles and practices of relevant areas.

A minimum of a 2:2 UK Honours degree or international equivalent.

We consider experience and qualifications from the UK and worldwide which may not exactly match the combinations above but it's not just about the grades - we'll look at your whole application, including your work experience. We want to know what makes you tick, and about your previous experience, so make sure that you complete your personal statement and attach your CV.

| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 with no element below 5.5<br>Your degree should have strong numerical content. |

## About the course

Step into the future of business with the MSc Artificial Intelligence for Business. This programme is designed for ambitious professionals and graduates ready to harness the power of AI and data science to drive real-world impact.

You'll gain a rare combination of cutting-edge technical skills and strategic business insight, learning how to apply AI across marketing, sales, finance, operations and customer analytics.

## What you'll study

You'll master programming, machine learning, big data, predictive analytics, recommendation engines, customer segmentation and time series analysis.

You'll also explore the ethical, legal and sustainability challenges of AI in business, preparing you to make responsible, informed decisions that shape the future.

## Core modules include:

- ✓ Introduction to Programming - 20 credits
- ✓ Fundamentals of Data Science - 20 credits
- ✓ Understanding Artificial Intelligence - 20 credits
- ✓ AI for Marketing and Sales - 20 credits
- ✓ Big Data for Business - 20 credits
- ✓ Research Project – 60 credits
- ✓ Research and Application in Artificial Intelligence and Data Science - 20 credits

# MSc Artificial Intelligence for Healthcare

## Apply today

To find out more about MSc Artificial Intelligence for Healthcare or to apply, get in touch with our team today on contact@london.hull.ac.uk

| | |
|---|---|
| **Fees:** | International: £18,000<br>Home: £12,770 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## About the course

A revolution is underway in the healthcare sector. Increasingly data science and artificial intelligence are automating tasks that used to take a long time to implement by hand.
This degree will teach you how to optimise processes within the sector and you will learn from experts who have careers in the same.
Data is one of the 21st century's most valuable commodities. Understanding how to analyse, validate and interpret it to inform decision-making are key skills in just about every walk of life.

## What you'll study

The programme will cover topics such as, programming, statistics, machine learning, data visualisation and computer vision and the ethical and legal responsibilities of using data. This health variant will include bespoke modules covering medical imaging, how artificial intelligence can work hand-in-hand with humans in a healthcare and clinical setting and with real-world healthcare challenges.

## Core modules include:

- ✓ Introduction to Programming - 20 credits
- ✓ Fundamentals of Data Science - 20 credits
- ✓ Understanding Artificial Intelligence - 20 credits
- ✓ Artificial Intelligence as a Medical Device - 20 credits
- ✓ Research and Application in Artificial Intelligence and Data Science - 20 credits
- ✓ Artificial Intelligence and Data Science Research Project – 60 credits
- ✓ Medical Imaging and Artificial Intelligence - 20 credits

# MSc Artificial Intelligence and Data Science

## Apply today

To find out more about MSc AI and Data Science or to apply, get in touch with our team today on contact@london.hull.ac.uk

| | |
|---|---|
| **Fees:** | International: £18,000<br>Home: £15,000 |

## About the course

Want to change direction? Switch careers? Upskill? This Master's is for you.

This MSc is suitable for students with a range of backgrounds in STEM and non-STEM subjects.

Don't have programming experience? That's okay. You'll learn Python coding at the start of the course to make sure you're up to speed.

Unlike other universities, you'll study the full breadth of AI – not just one specialism. You'll cover programming, statistics, machine learning, big data, data visualisation, computer vision and the ethical and legal responsibilities of using data.

You can design your own research project to suit your background and career interests. Some students may be able to work on a forefront of data science.

## What you'll study

Throughout the course you will develop key professional and research skills, as well as an understanding of ethical business practice.
You will also undertake a final research project, which can be either a dissertation or a business-based project.

## Core modules include:

- ✓ Introduction to Programming - 20 credits
- ✓ Understanding Artificial Intelligence - 20 credits
- ✓ Fundamentals of Data Science - 20 credits
- ✓ Big Data and Data Mining - 20 credits
- ✓ Applied Artificial Intelligence - 20 credits
- ✓ Research and Application in Artificial Intelligence and Data Science - 20 credits
- ✓ Artificial Intelligence and Data Science Research Project – 60 credits

# MSc Business Analytics and AI

## Apply today

To find out more about MSc Business Analytics and AI or to apply, get in touch with our team today on contact@london.hull.ac.uk

| | |
|---|---|
| **Fees:** | International: £17,000<br>Home: £12,770 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## About the course

Our Business Analytics and Artificial Intelligence MSc equips you with the expertise to navigate today's data-driven world and harness AI for strategic decision-making. This programme blends business insight with cutting-edge analytics, preparing you for roles that require both technical know-how and commercial awareness.

## What you'll study

You build a portfolio of real-world experience. Through case studies, industry projects, and hands-on data challenges, you'll develop problem-solving skills that are highly valued by employers. Whether you're automating processes, optimising business strategies, or uncovering new insights through AI, this programme prepares you to lead in an evolving digital economy.

## Core modules include:

- ✓ Foundations of Business Analytics and AI - 20 credits
- ✓ AI-driven Business Analytics - 20 credits
- ✓ Decision Making Techniques - 20 credits
- ✓ Supply Chain Analytics - 20 credits
- ✓ People Analytics and Working Digitally - 20 credits
- ✓ Marketing Analytics – 20 credits

# MSc Business Management

## Apply today

To find out more about MSc Business Management or to apply, get in touch with our team today on contact@london.hull.ac.uk

| | |
|---|---|
| **Fees:** | International: £17,000<br>Home: £12,100 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## About the course

Future business managers and leaders need to possess agility, resilience, and the ability to tackle complex challenges in a carbon-neutral and digitally transformed world. Our MSc in Business Management programme prepares you for exactly that. Blending cutting-edge academic thinking with industry best practices, you'll gain the up-to-date knowledge, skills, and expertise you need to become an impactful and agile business leader.

## What you'll study

Throughout the course you will develop key professional and research skills, as well as an understanding of ethical business practice. You will also undertake a final research project, which can be either a dissertation or a business-based project.

## Accreditation

Our double international accreditations from the Association of MBAs (AMBA) and the Association to Advance Collegiate Schools of Business (AACSB) means you'll also be learning in a Business School that's part of an exclusive club – only around 5% of the world's 13,000 plus business programmes hold both AMBA and AACSB accreditations.

[3] Graduate Outcomes 2019/20

AACSB ACCREDITED

# MSc Digital Marketing and Advertising

## Apply today

To find out more about MSc Digital Marketing and Advertising or to apply, get in touch with our team today on contact@london.hull.ac.uk

| | |
|---|---|
| **Fees:** | International: £17,000<br>Home: £12,100 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## About the course

This MSc programme offers a unique opportunity to develop the knowledge and skills necessary for success in the rapidly evolving digital marketing and advertising industry. Combining the two distinct areas of digital marketing and advertising, you'll gain an authentic business learning experience through a hands-on approach designed to give you the skills most highly sought-after in today's business environment.
In addition to technical skills, this programme places a strong emphasis on leadership and teamwork development. These are cultivated through Active Blended Learning projects, group projects, case studies, and interactive discussions, preparing you to effectively collaborate with colleagues and clients in your future roles. You will also benefit from regular insights from guest speakers with a high level of senior leadership experience, drawn from our varied network of cross-sector industry partners.

## What you'll study

During your first trimester you'll gain deep insights into the core areas and practices of digital marketing management. In the second trimester, you will have the opportunity to further expand your subject knowledge and gain a broader understanding of digital and social marketing techniques, as well as advertising and communication channels. You will also undertake a final research project, which can be either a dissertation or a business-based project.

### Core modules include:

- ✓ Buyer Behaviour and Ethics - 20 credits
- ✓ Digital Marketing Strategy - 20 credits
- ✓ Marketing Management in Action - 20 credits
- ✓ Advertising Management - 20 credits
- ✓ Customer Experience (CX) Strategies and Techniques - 20 credits
- ✓ Social Media Marketing Management - 20 credits
- ✓ Dissertation – 60 credits
- ✓ Study Skills and Research Methods – non credit bearing

## Accreditation

The programme is accredited by the IDM (Institute of Digital Marketing), giving you the opportunity to build professional awards alongside your Master's degree, equipping you with evidence to secure exciting roles in Digital and Social Media marketing.

# MSc Healthcare Leadership

| | |
|---|---|
| **Fees:** | International: £17,000<br>Home: £12,100 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## Apply today

To find out more about MSc Healthcare Leadership or to apply, get in touch with our team today on contact@london.hull.ac.uk

## About the course

The Healthcare Leadership MSc course explores healthcare leadership from both a practical and evidence-based perspective. Healthcare is a dynamic sector, and leadership is a crucial area to ensure high quality and safe patient care. The programme offers a national and global perspective on healthcare systems and is based on current research and practice. Students will have the opportunity to develop their leadership knowledge and skills. It will develop their understanding of healthcare organisations as a basis to improve practice, support patient safety and sustain students' long term leadership ambition.

## What you'll study

Our modules focus on the development of self as leader, how leaders support change, innovation and problem-solving. Other modules promote quality and safety in healthcare and also explore healthcare policy from a global viewpoint. Connected to this we expose students to a diverse range of peers who are healthcare professionals from other healthcare systems in order the maximise learning.

The final Capstone module allows a deep exploration of a leadership issue chosen by students analysing the evidence and reflecting on their leadership journey through the programme. We also develop the analytical and reflective skills required to be an effective leader as well as the academic skills commensurate with L7 study.

### Core modules include:

- ✓ Self as Leader - 30 credits
- ✓ Supporting Change, Innovation, and Problem-Solving - 30 credits
- ✓ Promoting Quality and Safety in Healthcare - 30 credits
- ✓ Global Perspectives on Healthcare Policy - 30 credits
- ✓ Capstone Project - 60 credits

# MSc Logistics and Supply Chain Management

| | |
|---|---|
| **Fees:** | International: £17,000<br>Home: £12,100 |
| **Timetable:** | 2 days a week |
| **Mode of Study:** | Full Time |
| **Scholarships:** | Available |
| **Intakes:** | September, January, June |
| **Course Length:** | 1 year |
| **Entry Requirements** | 2:2 UK Honours degree or international equivalent and academic IELTS 6.0 overall, with 5.5 in each skill. |

## Apply today

To find out more about MSc Logistics and Supply Chain Management or to apply, get in touch with our team today on contact@london.hull.ac.uk

## About the course

The world of logistics and supply chain management is increasingly unpredictable, digitised, and essential for keeping the wheels of global business turning. Drawing on vast expertise and resources from our Logistics Institute – a world-class facility based at the Business School – our MSc Logistics and Supply Chain Management will familiarise you with all the tools and techniques necessary to develop effective and efficient supply chains. You will explore current theory and research, seeing how this informs practice, and develop innovative solutions to real-life logistics and supply chain problems, equipping you to provide higher levels of value and sustainability for businesses in any part of the world.

## What you'll study

Throughout the course you will develop key professional and research skills, as well as an understanding of ethical business practice. You will also undertake a final research project, which can be either a dissertation or a business-based project.

## Core modules include:

- ✓ International Trade and Global Logistics - 20 credits
- ✓ Principles of Logistics and Supply Chain Management - 20 credits
- ✓ Supply Chain Strategy and Design - 20 credits
- ✓ Decision Making Techniques for Supply Chain Management - 20 credits
- ✓ Sustainable Logistics and Operations Management - 20 credits
- ✓ Supply Chain Analytics and Information Management - 20 credits
- ✓ Dissertation – 60 credits
- ✓ Study Skills and Research Methods – non credit bearing

## Accreditation

Our MSc has been accredited by the most relevant professional bodies in logistics – the Chartered Institute of Logistics and Transport (CILT) and the Chartered Institute of Procurement and Supply (CIPS) – giving you a head start in this competitive field.

The Chartered Institute of Logistics and Transport

CIPS Chartered Institute of Procurement & Supply

# Student and Staff Testimonials

"I love how interactive the classes are and how friendly the lecturers are. They're always approachable for questions about assignments or anything we're unclear about. Settling in was easy, and staff encouraged us to ask for help if needed. Moving to a new country can be tough but I've had no problems."

Emmanuella, Nigerian.
Studied MSc Digital Marketing and Advertising

"What makes any student successful is an eagerness to learn and an excitement to solve real life problems with coordination, collaboration, planning and critical thinking. What I enjoy most about working at the University of Hull London is the diversity. I get a chance to mentor a diverse student body and to work with a diverse academic community that we have here."

Areeba Iqbal,
Lecturer and Programme Leader

"The University of Hull had good rankings, 44th overall and gold ranking in TEF so that influenced my decision to choose it. Compared to India the teaching system is very different and I like the way teachers are very practical."

Karthik, Indian
Studied MSc Business Management

# Our Stratford Campus

Located in the heart of Stratford, the University of Hull London campus is a brand-new, purpose-built learning environment designed to help you study, connect and thrive.

Spanning 40,000 square feet across two floors, our modern campus combines high-specification teaching facilities with welcoming spaces to study, collaborate and socialise.

Whether you're attending a lecture, working on a group project or preparing for your next assessment, you'll have everything you need to make the most of your student experience.

### Designed for the way you learn

- High-specification IT laboratory with desktop computers and advanced audiovisual technology.
- Academic Lounge providing a dedicated space to meet with tutors and academic staff.
- Student Support Centre with consultation rooms, reception facilities, and dedicated parenting and first aid rooms.
- Two multi-faith prayer rooms with ablution facilities, providing inclusive spaces for reflection and worship.
- Open-plan study areas with collaborative workspaces and convenient refreshment points.
- Project rooms, meeting rooms and phone booths for group work, presentations and focused private study.
- Students benefit from Stratford's excellent transport connections, with Stratford and Stratford International providing easy access to the campus and the wider city. From Stratford, in Zones 2/3, students can access the Central, Jubilee, Elizabeth, DLR and London Overground lines, giving you excellent connections across London and further afield.

**Cloud Nine**, our striking double-height Town Hall space with tiered seating, providing a unique setting for guest speakers, presentations and student events.

# Student Support

**All the support you need. Before you arrive, while you're here, and even after you've left – we can help point you in the right direction.**

## Full support

If you are coming to our London Campus from overseas, we've got a full package of support ready to make the whole process as easy and stress-free as possible. From planning your move and visa applications to managing money and accessing local services, our experienced team will work with you or your agency to make it as smooth and stress-free as possible.

## Whatever you need, we've got it covered

Our specialist team are on-hand to help you online and in person. If you know or find you need support with learning, mental health, assistive technology, or something else entirely just visit hull.ac.uk/choose-hull/student-life/student-support. You'll find a full list along with links and assistance making appointments.

## Getting to the UK

You can start the process of applying for a student visa at gov.uk/student-visa/apply, or download and print a visa application gov.uk/check-uk-visa. You'll find a lot more information on the visa process on the government website, and your in-country agency will be able to answer questions too.

## IT facilities

There are a number of additional computer and IT resources for research, assignments and printing. We'll cover everything at your first induction.

A global community of staff, students and alumni from over 100 countries

With our team of academics, advisers and experts by your side, there's no stopping *you.*

## Access to resources

All the core resources, for all your modules, will be available through the University's online library.

## Students' Union

As members of Hull University Students' Union, we will enable you to connect with the student communities in London. Through our unique Graduate Professional Networking Initiative, we will give you the opportunity to engage with your professional world and take part in professional activities competing and cooperating with students from different campuses and institutions.

Nothing should get in the way of reaching your personal best. With our team of academics, advisers and experts by your side, there's no stopping you.

**Our support. Your hard work.**
***Together unstoppable.***

# Careers and Employability

**We're as focused on your future as you are, and employability is built into our courses from day one. Because we design courses to support your career path, you know you'll be well-positioned to gain the skills, experience and contacts you need to go places and find your extraordinary.**

## Designed with careers in mind

Like all University of Hull courses, our London Campus is focused on employability from beginning to end. Our emphasis on career skills, makes sure you will be prepared for the role you want to go into when you leave, and be able to demonstrate to employers that you have what it takes.

- Gain CV-boosting experience to secure placements, paid internships and volunteering opportunities.
- Get insider advice from industry experts
- Network with employers at workshops, jobs fairs and presentations.

## London as a global hub

With a higher percentage of graduates than any other city in the world, London, as the world's global financial hub, is the leading location for students looking to start their careers.

More likely to gain a 1st or 2:1 degree[1]

More likely to be in graduate jobs six months after graduation[1]

More likely to earn a higher wage six months after graduation[1]

**The international jobs market is highly competitive. A degree from the University of Hull is a great way to make sure your CV stands out.**

[1] UUKi Go International: Stand Out campaign 2018

# Why Hull London?

When you join Hull, you're a valued member of a tight-knit community where the lecturers know your name. This is a place where everyone matters. A place for all ages, all backgrounds, all walks of life. It's no coincidence that "friendly" is the word most of our students use to describe Hull. So whoever you are, there'll be like-minded people here. You just have to find them. And that starts now.

## A personalised approach

- The university is well-equipped to support mature students with their studies through student services and teaching support services.
- You'll engage in interactive classes with individual support as required.
- There is a strong sense of academic community, connection and support throughout the campus. in addition to an environment that celebrates events and festivals from all cultures..
- We have an excellent student-to-lecturer ratio.

## Excellence in teaching

- One of the oldest universities in the UK (number 14th) – founded back in 1927.
- Excellence award (TEF Teaching Excellence Framework) in teaching based on years of experience.
- Assessments based on real-life projects better prepare students to address work challenges.
- Programmes and teaching is focused on employability and ensuring students are more likely to secure work after studies.
- CV writing support and interview prep.

## Located in one of London's fastest growing innovation hubs

- For students focused on employability,, Stratford offers valuable exposure to industry, networking opportunities and a modern business environment.
- Stratford combines London's opportunities with green space and a more relaxed environment. Students can enjoy Queen Elizabeth Olympic Park, cultural attractions, restaurants, entertainment and Westfield Stratford City, while still being minutes from central London.

# Accommodation

**Booking with us ensures that you will have a safe, comfortable environment, and that you will be housed with other Hull London students, which is a great opportunity to make friends!**

## Central London location

You can choose to live in the heart of the best student city in the world[1], London! You are in a prime location for an unforgettable London experience: enjoy the many restaurants, bars, local markets, and events that the city has to offer, whilst having easy access to all the essential shops and supermarkets, while also being within commuting distance of the University of Hull London.

## Safety and community

You will be living with your fellow Hull London classmates, creating a safe and inclusive community, ideal for making new friends.

## All included

WiFi and utility bills are all included in your rent, so there's no sudden increase in costs during the year.

## Don't miss out

We strongly recommend booking early as accommodation in London sells out fast.

# Guide to Stratford, *London*

London's most exciting new neighbourhood, home to world-class sporting venues, a thriving cultural district, Europe's largest urban shopping centre and one of London's best-connected transport hubs,

Stratford offers the perfect balance of campus life, career opportunities and city living.

Stratford has become one of London's fastest-growing innovation hubs. Students benefit from being close to global businesses, tech start-ups and creative industries.

## 560 Acres of Parkland

Unlike many city-centre campuses, the Olympic Park in Stratford offers acres of green open space and waterways. You can study outdoors, go for a run, cycle between lectures or simply unwind after a busy day.

Take a stroll through the Olympic Park or head into the city for views of some of London's major landmarks including the London Eye, Big Ben and the fantastic skyline showing St Paul's Cathedral.

## Excellent Connections

Stratford is one of London's best-connected transport hubs, in Zone 3 with access to The London Underground, Docklands Light Railway and high speed rail to St Pancras.

You'll find over 200+ museums in London, including the iconic V&A Museum in Stratford.

## Westfield Stratford City

is one of Europe's largest shopping and leisure destinations, offering hundreds of shops, affordable dining options, cinema and gym.

*125,035*

International students studying in London

## Everyman Cinema

within a two minute walk of campus meaning you can catch up on the latest blockbuster after class.

## ArcelorMittal Orbit 360

Take in London's iconic skyline from above, then discover the city's famous landmarks from an outdoor observation walkway suspended 80 metres above the ground.

## The *(not so)* small print

The information in this brochure is provided by Cambridge Education Group and the University of Hull for general information purposes only. We do everything possible to keep the information up to date and correct. But we make no representations or warranties of any kind, expressed or implied. Whether about the completeness, accuracy, reliability, suitability or availability with respect to the publication or the information, products, services or related graphics contained in the publication for any purpose. Any reliance you place on this information is strictly at your own risk.

We're continually adapting and evolving our courses so that we meet the changing needs and expectations of our students and employers. We check that our programmes reflect national benchmarks; that they enhance our students' skills; that they're relevant to you and to your potential future employers; and that they meet the demands of regulatory bodies (for example, to earn accreditations that are essential in some subjects and for some professions).

What this all means is that the course information in this guide is correct at the time of going to print. But – for the reasons we outlined above – some of our courses could still change before you start your course. You can find all the latest information on the course pages of our website. Or if you have any questions or need further info, you can contact our recruitment team at contact@london.hull.ac.uk.
